

## III Photobiophysics Symposium: Nipo-Brazilian meeting on Biomedical Optical Imaging

September 2nd, 2019

Venue: Auditorium CeTI-RP-USP Ribeirão Preto

This year our Photobiophysics Group is honored by the visit of Japanese researchers Prof. Norimichi Tsumura, Prof. Shoji Yamamoto and Ryou Takahashi. In this symposium, we will exchange knowledge on problems that can be potentially tackled by Biomedical Optical and Computational Imaging. The symposium will also include talks by our collaborators Prof. Juliana Pavoni, on radiotherapy and radiomics, and Prof. Thiago Pereira, on biological hyperspectral imaging.
